In the event of an accident, there is a risk of release of gases, vapours, and liquids into the environment

Follow the instructions of the person in charge

OHS and health protection

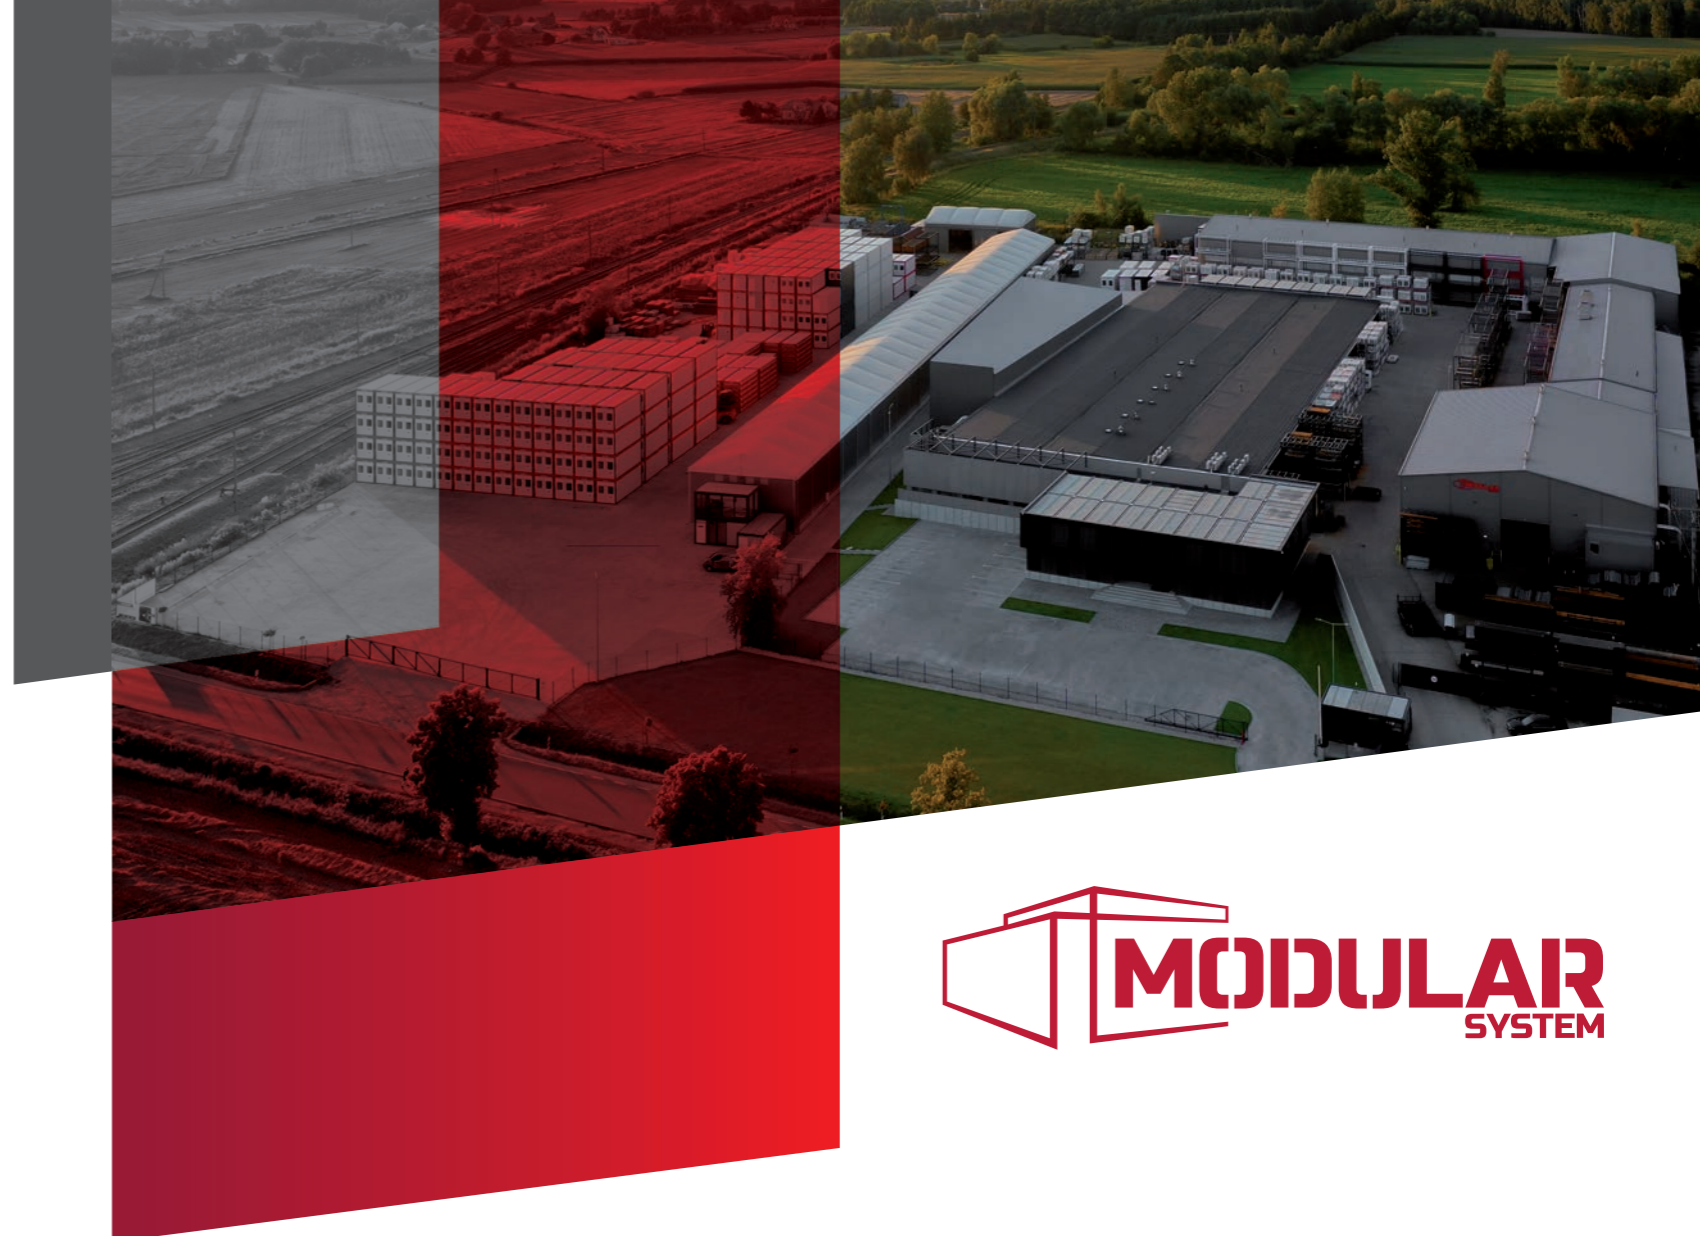

Persons on the plant premises are required to:

- Abide by health and safety regulations and principles
- Abide by traffic regulations
- Park cars only in the designated areas
- Report any accidents and threats noticed
- Inside the halls to move only on designated routes, paying attention to any means of transport
- Comply with all warning signs and information boards
- Use personal protective equipment and protective clothing where required

Further:

- Visitors to the facility are required to move around the premises with a guide
- The segregation of all waste according to the description on the containers is obligatory on the plant premises
- In the event of unintentional pollution of the environment [leakage, spillage], the fact must be reported to security and, in the case of guests, to the caretaker.
- Hand disinfection, proper wearing of masks and keeping a distance is mandatory on the premises

INFORMATION ON SAFETY ON THE AREA OF MODULAR SYSTEM

Welcome to Modular System
During your visit, we require compliance with our safety regulations designed to protect the health and life of visitors

In this folder you will find information on:

- Key rules on the plant premises
- Occupational health and safety at work and health protection
- Personal protective equipment
- What to do in the event of an emergency

When visiting the site, both visitors and employees of external companies must be protected against accidents and risks to life and health.
This requires absolute compliance with our safety regulations
